### SUMMARY

With **6 years** of experience in web development, specialized in Vue.js and JavaScript, with extensive expertise in Nuxt.js. Successfully launched numerous projects for **foreign companies**, actively participated in **15 projects**. Proficient in deploying projects from scratch. *Firmly believes that the key to successful work lies in meticulous attention to detail, producing clean and easily understandable code.* For more information on qualifications and past projects, please refer to the resume: <https://swenlii.github.io/>

### TECHNICAL SKILLS

### PROFESSIONAL EXPERIENCE

#### Senior Frontend Developer, Wee.ae

Sep 2022 - Dec 2024

- Development of the web application on the **Nuxt 3** framework with **Vue.js**
- Focus on cross-browser and adaptive layout based on **Figma** layouts using the **Stylus** preprocessor and **BEM** methodology
- SEO optimization: semantic layout, adding micro-markup, and using ARIA attributes
- Code optimization and refactoring, covering it with unit tests on **Vitest (Jest)**
- Integration with the backend and data processing using **JavaScript** and **AJAX**
- Using **Git** to manage code changes, view code reviews, and push releases from **GitLab** via **CI/CD** processes

#### Middle Fullstack Developer, Blackwood.cloud

Nov 2019 - Dec 2021

- Website development is on time to order and support of high-load sites
- Personally developed one of the sites entirely on **Vue.js / Node.js / MySQL**
- Development of the server part of the site on **Node.js** and a database on **MySQL** (phpMyAdmin)
- Development of adaptive design using **BEM**, **SCSS**, **Pixel Perfect** and **Photoshop** layouts
- Fixing defects and vulnerabilities, protection against XSS attacks

#### Junior Frontend Developer, Platon Finance

Jul 2019 - Nov 2019

- Participated in the redesign of the website
- Developing and editing components in **Vue** and **JQuery**
- Creating web pages using **SCSS** and **Bootstrap** based on **PSD** layouts
- Utilized **Git** to manage code changes and creating merge requests

#### Junior Backend Developer, SykGameLab

Aug 2018 - Jun 2019

- Development of a **REST API** for the game using **PHP (MySQL database)**
- Layout of a game website with **HTML**, **CSS** and **Java Script**
- Developed a way to obtain achievements and save the results in the leaderboard

## EDUCATION

### Applied Mathematics And Computer Science

2014 - 2018

Syktyvkar State University Named After. Pitirim Sorokin

- learning the basics of web development, learning JS, PHP, SQL, CSS and HTML (of course, there were other technologies, such as C++ and Java)
- participating in the development of a student newspaper website
- writing a graphics editor in JavaScript as a coursework, playing a game in C++ in practice, as well as participating in olympiads

## LANGUAGES

- Russian (Native speaker)
- English (B2)
